### Sample (to be furnished at no cost to the Department)

Corrugated Pipe — Submit four (4) 1.5-meter lengths of pipe and a joint system.

Smooth Wall Pipe — Submit one (1) 2-meter length of pipe and a joint system.

### **TEST REQUIREMENTS:**

Laboratory Testing

Laboratory results obtained by the AASHTO NTPEP will be used to determine conformance to DOTD Standard Specification, Subsection 1006.

Evaluation Time (Varies)

NTPEP Laboratory testing - A final report will be received after the evaluation period. Exact deadline dates and dates for submittals should be obtained from the NTPEP Coordinator.

Evaluation of Results - 2 weeks

### **GENERAL:**

Upon completion of the evaluation, the submitter will be notified in writing concerning the results of the evaluation and whether the system will or will not be added to the Approved Materials List (AML). The DOTD Materials and Testing Section Coordinator shall be notified in writing of any change from the original system submittal. The Department reserves the right to re-evaluate any system or individual material at any time. A Certificate of Analysis (CA) of the system shall be submitted annually to the DOTD Materials and Testing Section Coordinator to remain on the AML.

### **PROJECT ACCEPTANCE REQUIREMENTS:**

The inclusion of any system on the AML is not blanket approval for its use. All systems, regardless of prior approval, shall be sampled in accordance with the Materials and Sampling Manual.

### **DISQUALIFICATION AND REMOVAL:**

Any system may be removed from the AML for non-conformance with specifications, performance requirements, failure to supply annual CAs to the DOTD Materials and Testing Section Coordinator or failure to notify the Department of any change in system formulation.
