

The Proposers' SOQs were diligently evaluated and rated by the PPP RFQ Evaluation Committee. As Chair of the Committee, I am presenting the attached evaluation ratings for determination of the Short-List.

The Statement of Qualifications Evaluation and Short-List Plan for the Project directs the PPP RFQ Evaluation Committee to recommend a Short-List of no more than four of the highest rated Proposers. Given the ratings shown in the attached chart, the PPP RFQ Evaluation Committee recommends the following Proposers be included on the Short-List:

- Calcasieu Bridge Partners
- Calcasieu Connectors Group
- I X Bridge Group
- I-10 Calcasieu Mobility Partners, LLC

These Proposers provided the SOQs assigned the highest qualitative ratings by the PPP RFQ Evaluation Committee. These ratings eliminated Calcasieu Gateway Connectors from inclusion on the recommended Short-List.

As provided in the Project's Statement of Qualifications and Short-List Plan, this recommendation is presented to you for review with the consensus worksheet for final determination of the Short-List.
