# 2024 LOUISIANA AIRPORT DIRECTORY

## INTRODUCTION

The Louisiana Department of Transportation and Development (LaDOTD) Aviation Division's Mission is to continue to improve our aviation infrastructure to ensure a safe, modern, and well managed system of airports which provides convenient and efficient access to the state for tourism commerce, industrial interest, recreation and economic development, and also to continually modernize the state's public airports to meet the changing needs of the aviation community.

The airport data provided in this directory was consolidated from a combination of resources such as the Federal Aviation Administration's (FAA's) airport master records, public internet search data, and information provided by the airport owners and managers. In matters of navigation, landing, and other critical flight decisions, we urge you to refer to the most current FAA (or other as applicable) published materials. Examples include the FAA's: Chart Supplement, Sectional Aeronautical Charts, Aeronautical Information Manual (AIM), Notice to Air Missions (NOTAMs), etc.

The LaDOTD makes no warranty, expressed or implied, as to the accuracy of the information and expressly disclaims liability for the accuracy thereof.

## This publication is not intended for use in flight operations.

**Contact Information:** Physical Address DOTD Office of Multimodal Commerce – Aviation Division P.O. Box 94245 1201 Capital Access Rd., EW-5<sup>th</sup> Floor Baton Rouge, LA 70802

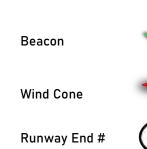

Mailing Address Baton Rouge, LA 70804 Phone: (225) 379-3050 Fax: (225) 379-3072

## **NOTES & LEGEND**

## Notes:

- The airport graphics shown throughout this document depict north oriented towards the top of the page.
- If an airport beacon is located in the vicinity of the airport but not within the graphic coverage area, a note was provided describing the beacon's relative location to the airport.
- If no beacon symbol or beacon note has been provided, then the airport is not equipped with an airport beacon.
- Runway gradient (slope) information was obtained from the FAA database and indicated as it was available for each airport. ٠
