

DOTD FORM: 24-102

PROPOSAL TO PROVIDE CONSULTANT SERVICES

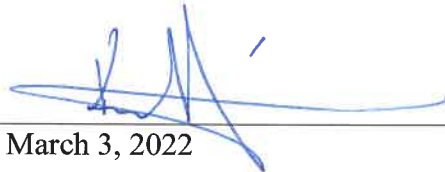

(Revised June 1, 2021)

Prime consultant shall complete the DOTD Form 24-102 without altering the Form's text; however, the instruction and/or guidance for Sections 12 through 23 can be removed but do not remove Section title and number.

ANY CONSULTANT FAILING TO SUBMIT ANY OF THE INFORMATION REQUIRED ON THE DOTD FORM 24-102, OR PROVIDING INACCURATE INFORMATION ON THE DOTD FORM 24-102, MAY BE CONSIDERED NON-RESPONSIVE.

Prime consultant should enter the firm name in the footer at the bottom of this page. (It will carry over to subsequent pages.)

1. Contract title as shown in the advertisement	CONTRACT FOR SOUTH COLLEGE ROAD (LA 3025) SIDEWALKS
2. Contract number(s) as shown in the advertisement	4400023706
3. State Project Number(s), if shown in the advertisement	H.012866
4. Prime consultant name (as registered with the Louisiana Secretary of State where such registration is required by law)	Aucoin & Associates, Inc.
5. Prime consultant license number (as registered with the Louisiana Professional Engineering and Land Surveying Board (LAPELS) if registration is required under Louisiana law)	EF.0001114 VF.0000179
6. Prime consultant mailing address	P.O. Box 968, Eunice, LA 70535
7. Prime consultant physical address (existing or to be established, if location is used as an evaluation criteria)	433 N. CC Duson Street, Eunice, LA 70535
8. Name, title, phone number, and email address of prime consultant's contract point of contact	Karl J. Aucoin, President 337-457-7366 k.aucoin@aucoinandassoc.com
9. Name, title, phone number, and email address of the official with signing authority for this proposal	Karl J. Aucoin, President 337-457-7366 k.aucoin@aucoinandassoc.com
10. This is to certify that all information contained herein is accurate and true, and that the team presently has sufficient staff to perform these services within the designated time frame. By submitting this proposal, proposer certifies that it is not engaged in a boycott of Israel and it will, for the duration of its contract	

<p>obligations, refrain from a boycott of Israel. Proposer also certifies and agrees that the following information is correct: In preparing its response, the proposer has considered all proposals submitted from qualified, potential subcontractors and suppliers, and has not, in the solicitation, selection, or commercial treatment of any subcontractor or supplier, refused to transact or terminated business activities, or taken other actions intended to limit commercial relations, with a person or entity that is engaging in commercial transactions in Israel or Israeli-controlled territories, with the specific intent to accomplish a boycott or divestment of Israel. The proposer also has not retaliated against any person or other entity for reporting such refusal, termination, or commercially limiting actions. DOTD reserves the right to reject the response of the bidder or proposer if this certification is subsequently determined to be false, and to terminate any contract awarded based on such a false response.</p>	<p>Signature (shall be the same person as #9):</p>  <p>Date: March 3, 2022</p>	
<p>11. If a Disadvantaged Business Enterprise (DBE) goal has been set for this advertisement, indicate which firm(s) will be used to meet the DBE goal and each firm(s)' percentage.</p>	<p><u>Firm(s):</u></p>	<p><u>Firm(s)' %:</u></p>

12. Past Performance Evaluation Discipline Table:

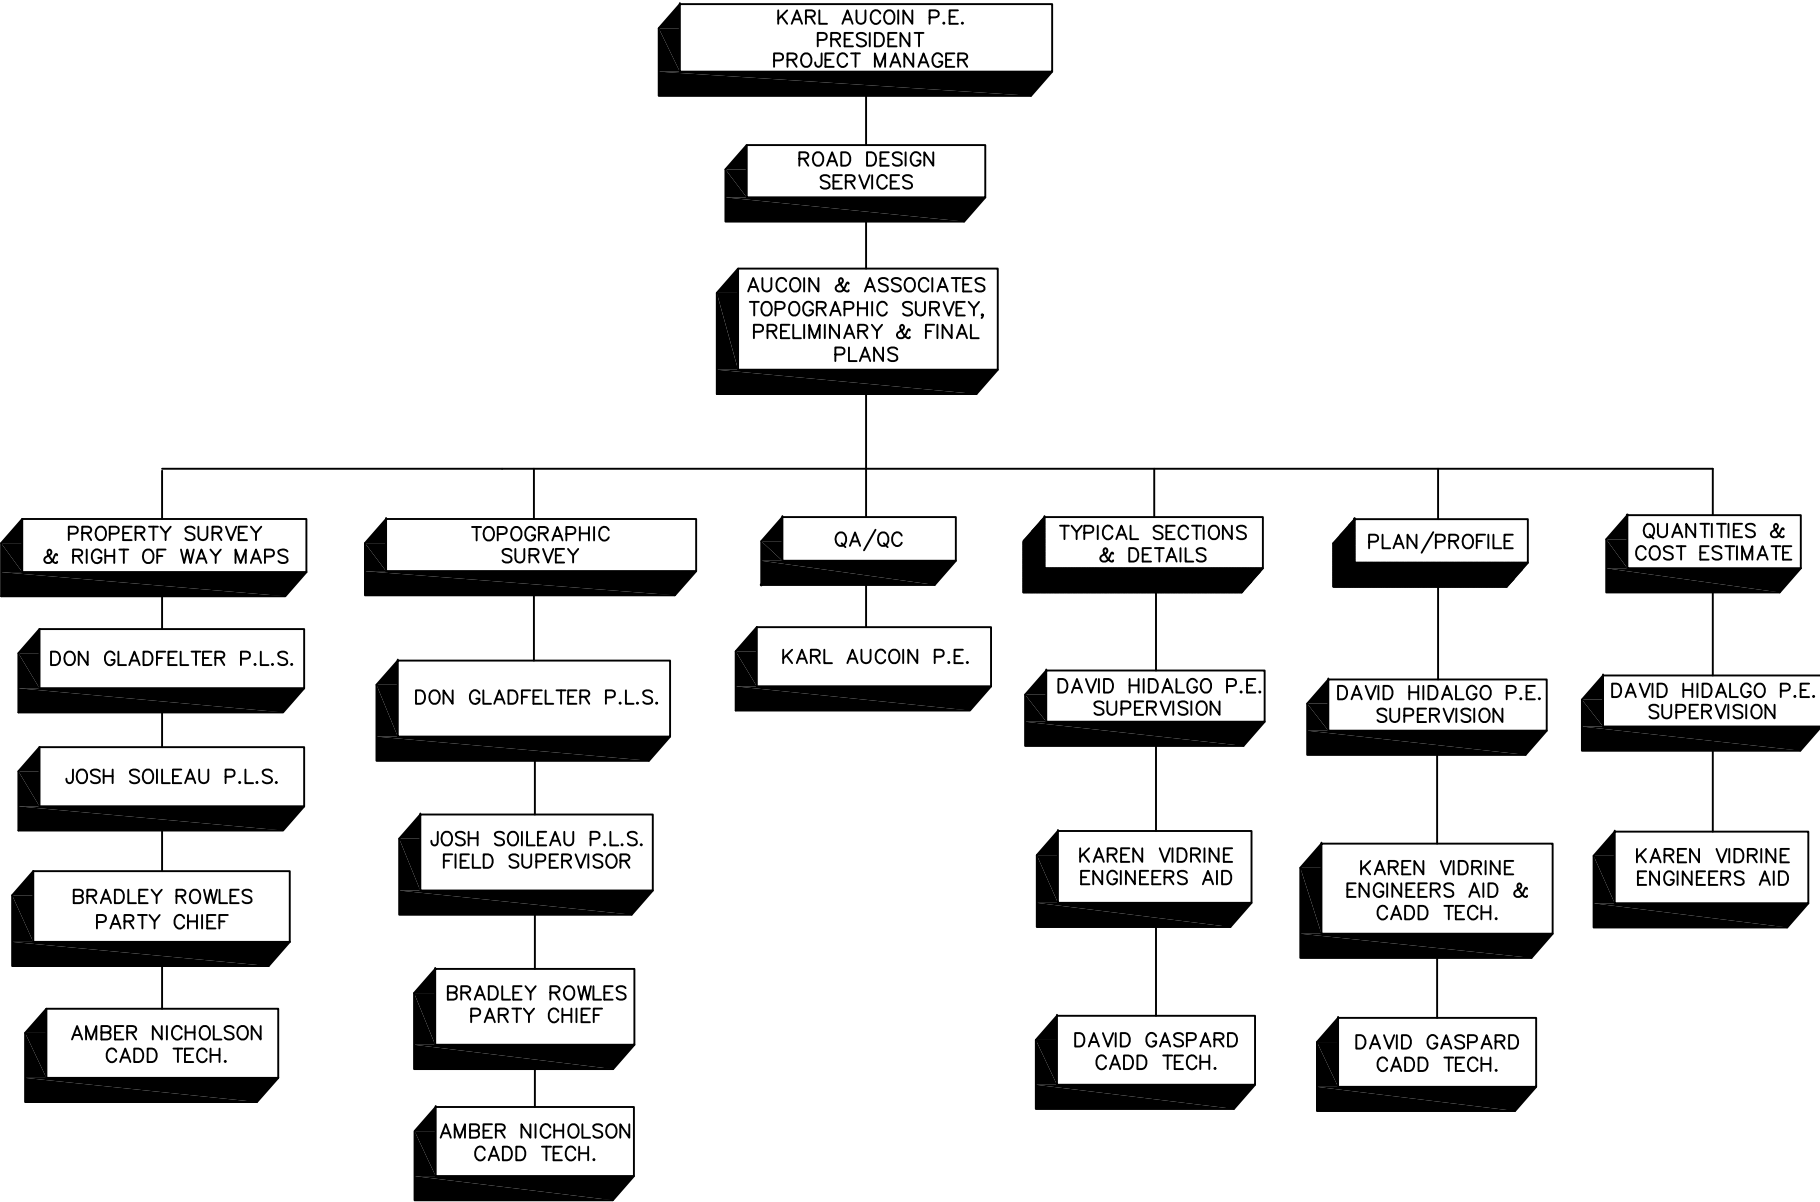

Evaluation Disciplines	% of Overall Contract	A&A					
Survey	25%	100%					
Road	75%	100%					
Identify the percentage of work for the <u>overall contract</u> to be performed by the prime consultant and each sub-consultant.							
Percent of Contract	100%	100%					

13. Firm Size:

Firm name	DOTD Job Classification	Number of personnel committed to this contract	Total number of personnel available in this DOTD Job Classification (if needed)
Aucoin & Associates, Inc.	Principal/Engineer	1	1

Year registered		Discipline		
Contract role(s) / brief description of responsibilities		Cadd technician providing technical assistance to engineers and surveyors and supervision of all Cadd activities		
Experience dates (mm/yy–mm/yy)	Experience and qualifications relevant to the proposed contract; <i>i.e.</i> , “designed drainage”, “designed girders”, “designed intersection”, etc. Experience dates should cover the time specified in the applicable MPR(s).			
86-94	S.P. 700-18-85 , Ambassador Caffery Parkway, Lafayette Parish Cad technician for topographic survey field rolls, preliminary and final plan preparation for this 1.21 mile 5 lane urban highway with pedestrian sidewalks and urban street lighting			
12/09-08/12	S.P. 700-27-0119 LA 97 Widening, Jefferson Davis Parish Cad technician for property survey and right of way map for acquisition of 40 parcels necessary for creating 2 travel lanes with center turn lane including ADA compliant pedestrian sidewalks in the City of Jennings			
03/18-02/20	S.P. H.012338 Civic Center Sidewalks, Terrebonne Parish, LPA Project Cad technician for preliminary and final plans development for 3,000 L.F. of sidewalks on both sides of Civic Center Blvd. in Houma, LA			
06/15-11/21	S.P. H.010922.5 LA 88 Realignment, Iberia Parish Cadd technician for topographic survey and preliminary and final plans for the realignment of LA 88 to eliminate two severe curves and provide a facility which would safely serve larger vehicles			
03/12-07/16	S.P. H.000870 You Winn Road @ U.S. 171, Calcasieu Parish Cadd technician for topographic survey, property survey and right of way maps associated with intersection safety improvement of You Winn Road with Gloria Drive at their intersection with US 171			
05/15-08/15	S.P. H.011100.5 LA 3059 Realignment, Calcasieu and Jefferson Davis Parishes Cadd technician for topographic survey for this highway improvement project which consisted of the realignment of LA 3059 to eliminate 2 severe curves for safety improvement			
05/13-06/14	S.P. H.004983 US Highway 11 Widening, St. Tammany Parish Cadd technician for complete topographic survey of 2.8 miles along US Highway 11			
04/12-05/13	S.P. 4400001599, T.O. H.002980.5 I-10 Overpass over US 165 & M.P.R.R., Route I-10, Jefferson Davis Parish Cadd technician for topographic survey of 2.6 miles of I-10			
08/11-08/12	T.O. No. H.002753.5 LA 89 Bayou Parc Perdu and Creek Bridges, Iberia and Vermilion Parishes Cadd technician for property survey and right of way maps for acquisition of 36 parcels necessary for 2 bridge replacements			
06/07-10/11	S.P. 700-10-0145 , Park Road at Recreation Boulevard, Calcasieu Parish Cadd technician providing technical support to project design engineers with development of existing and proposed earthwork surface models and calculation of plan quantities for this 0.25 mile roadway widening project. Karen also participated in coordination and supervision of all drafting activities associated with the topographic and property survey, right of way maps, preliminary and final plans			

16. Karen Vidrine Continued

02/02-12/08	S.P. 700-09-0144 I-49 North South Expressway, Caddo Parish Cadd technician for topographic survey, property survey, and right of way maps, and right of way acquisition associated with preliminary and final plan development of 3.75 miles of new 4 lane divided interstate highway which included an interchange and 2 slab span bridges
12/03-10/08	S.P. 700-27-0102 US 165 from Fenton to Kinder, Jeff Davis & Allen Parishes Cadd technician for topographic survey, property survey, and right of way maps associated with preliminary and final plan development for 8.5 miles of divided highway with the addition of 2 lanes and 5 new concrete slab span bridges
10/04-02/06	S.P. 701-65-0514 LA 1, Mansura to Marksville, Avoyelles Parish Cadd technician on 5 different task orders which included property surveys, right of way maps, title research and updates for approximately 160 parcels to be acquired
05/05-09/06	S.P. 700-99-0326, T.O. No. 701-65-0596 LA 103, Bayou Courtableau Bridge, St. Landry Parish Cadd technician for property surveys, right of way maps, title research reports and updates, necessary for right of way acquisition associated with approach roadway realignment and bridge replacement
09/04-12/06	S.P. 700-99-0326, T.O. No. 701-65-0508 LA 35, Bridge Replacements, St. Landry Parish Cadd technician for property surveys, right of way maps and title updates necessary for right of way acquisition on bridge replacement projects
10/00-04/06	S.P. 700-37-0101 US 165, Caldwell Parish Line to LA 841, Ouachita Parish Cadd technician for topographic survey, property survey and right of way maps associated with roadway improvement plan development and right of way acquisition for 4.5 miles of rural highway
05/05-08/05	T.O. No. 701-65-0563 LA 363, Bridge Replacement, St. Landry Parish Cad technician for property surveys, right of way maps, title research reports and updates associated with right of way acquisition for bridge replacement
08/99-11/02	S.P. 700-30-0120, LA 27 Overpass, Route I-10, Calcasieu Parish Cadd technician providing technical support to project design engineers with development of existing and proposed earthwork surface models and calculation of plan quantities for approaches to LA 27 Overpass. Karen also participated extensively in coordination and supervision of all drafting activities associated with the topographic survey, preliminary and final roadway and interchange plans
05/00-01/01	S.P. 700-99-0188, T.O. No. 701-65-0141 US 84 from Junction LA 129 to US 165, Concordia Parish Cadd technician for preparation of right of way map for approximately 78 parcels to be acquired
09/99-02/00	S.P. 700-99-0188, T.O. No. 701-65-0107 US 167 from Jackson Parish Line to LA 3061, Lincoln Parish Cadd technician of preparation of right of way maps necessary for acquisition of approximately 40 parcels
05/00-08/00	S.P. 700-99-0188, T.O. No. 701-65-0103 Southern Pacific Railroad Overpass, Jefferson Davis Parish Cadd technician for preparation of right of way maps necessary for acquisition

17. Firm Experience:

Firm name	Aucoin & Associates, Inc.			Past Performance Evaluation Discipline(s)*		Road	
Project name	LA 182 New Iberia Sidewalks				Firm responsibility (prime or sub?)		Prime
Project number	H.01295		Owner's name	LA DOTD			
Project location	Iberia Parish			Owner's Project Manager		Ryan Morvant	
Owner's address, phone, email		1201 Capitol Access Road, Baton Rouge, LA 70802, 225-379-1067, Ryan.Morvant@LA.GOV					
Services commenced by this firm (mm/yy)			06/20	Total consultant contract cost (\$1,000's)			383,865
Services completed by this firm (mm/yy)			02/22	Cost of consultant services provided by this firm (\$1,000's)			

Describe the project including the firm's role and members involved. (Highlight staff to be used in this proposal.)

A&A conducted a topographic survey to utilize in the development of design and construction plans for concrete sidewalks and shared use path. Survey data included roadways, curb, ramps, surface drainage features, trees, signs, drainage structures in conflict with proposed sidewalk, immovable structures, and finished floors of buildings within DTM. A&A identified and surveyed existing horizontal location of utilities utilizing LA ONE CALL and visual evidence.

LA 182 is a couplet that has both an eastbound and westbound roadway. The survey was conducted along both roadways of the couplet. The survey began 1100 feet northwest of the intersection of LA 182 and Barbin Reaux Drive and ran southeast along LA 182 for 4.58 miles. The survey included both sides of the road, and extended out 10 feet beyond the existing right of way or the outer edge of the proposed sidewalk as well as all intersecting roads between the couplet. The entire length of survey was approximately 18 miles.

Key staff members included Karl Aucoin, Joshua Soileau, Amber Nicholson

17. Firm Experience:

Firm name	Aucoin & Associates, Inc.			Past Performance Evaluation Discipline(s)*		Road

Project location	Jefferson Davis Parish			Owner's Project Manager		Mark Morvant	
Owner's address, phone, email		1201 Capitol Access Road, Baton Rouge, LA 70802					
Services commenced by this firm (mm/yy)			11/20	Total consultant contract cost (\$1,000's)			10
Services completed by this firm (mm/yy)			07/21	Cost of consultant services provided by this firm (\$1,000's)			

Describe the project including the firm's role and members involved. (Highlight staff to be used in this proposal.)

A&A was the prime consultant on this sidewalk project in Fenton, LA
A&A performed a topographic survey, prepared project report and
developed preliminary and final plan drawings and construction
proposal for 3,000 L.F. of pedestrian sidewalks near Fenton
Elementary School

Key staff members included Karl Aucoin, David Hidalgo, Karen Vidrine

17. Firm Experience:

Firm name	Aucoin & Associates, Inc.			Past Performance Evaluation Discipline(s)*		Road	
Project name	Ambassador Caffery Parkway				Firm responsibility (prime or sub?)		Prime
Project number	700-18-85		Owner's name	LA DOTD			
Project location	Lafayette, LA			Owner's Project Manager		Sherri LeBas	
Owner's address, phone, email		1201 Capitol Access Road, Baton Rouge, LA 70802					
Services commenced by this firm (mm/yy)			06/86	Total consultant contract cost (\$1,000's)			255
Services completed by this firm (mm/yy)			09/94	Cost of consultant services provided by this firm (\$1,000's)			

Describe the project including the firm's role and members involved. (Highlight staff to be used in this proposal.)

Ambassador Caffery Parkway from Kaliste Saloom Road to Verot School Road

A&A was the prime consultant for this 1.21 mile urban highway project. The project consisted of removal of an existing 2 lane rural highway and replacing it with a 4 lane urban highway with center turn lane with subsurface drainage system.

Pedestrian sidewalks and urban street lighting were also included in the project.

The sequence of construction was a significant element of project planning due to the intersection transitions for 2 high traffic volume thoroughfares at both the north and south project termini.

A&A provided preliminary and final plan development.

Key staff members included Karl Aucoin, David Hidalgo, Karen Vidrine

17. Firm Experience:

Firm name	Aucoin & Associates, Inc.			Past Performance Evaluation Discipline(s)*		Road	
Project name	Beulah Street Sidewalk				Firm responsibility (prime or sub?)		Prime
Project number	744-49-0014		Owner's name	LA DOTD			
Project location	Eunice, LA			Owner's Project Manager		Valerie Horton

Describe the project including the firm's role and members involved. (Highlight staff to be used in this proposal.)

A&A met with Entity to plan and execute work on the project, performed topographic surveys necessary for design of the project, advised Entity as to necessary services, prepared preliminary engineering study and design, prepared preliminary and final plans and specifications, prepared cost estimates and construction proposal and provided CE&I services for 3,200 L.F. of ADA compliant sidewalk safety improvements along a pedestrian corridor from the downtown Washington Historic District to a public RV and recreation park

Key staff members included Karl Aucoin, David Hidalgo, David Gaspard

17. Firm Experience:

Firm name	Aucoin & Associates, Inc.			Past Performance Evaluation Discipline(s)*		Road	
Project name	LA 97 Widening				Firm responsibility (prime or sub?)		Prime
Project number	700-27-0119		Owner's name	LA DOTD			
Project location	Jennings, LA				Owner's Project Manager	Tim Nickel	
Owner's address, phone, email		1201 Capitol Access Road, Baton Rouge, LA 70802					
Services commenced by this firm (mm/yy)			10/09	Total consultant contract cost (\$1,000's)			396
Services completed by this firm (mm/yy)			07/12	Cost of consultant services provided by this firm (\$1,000's)			

Describe the project including the firm's role and members involved. (Highlight staff to be used in this proposal.)

Project consisted of 1.08 miles of 3 lane urban curb and gutter highway with subsurface drainage system and LA 97/102 intersection improvements

ADA compliant pedestrian sidewalks were also included in the project

Responsibilities included right of way surveys, property surveys, title reports, right of way maps, preliminary and final plans including typical and cross section development, horizontal and vertical roadway and intersection geometrics, plan/profile sheet development, storm drain and hydraulic analysis and design, summary of estimated quantities, determination of utility conflicts and development of sequence of construction

Key staff members involved were Karl Aucoin, David Hidalgo, Amber Nicholson and Karen Vidrine

18. Approach and Methodology:

Project Purpose & Site Conditions

Within the City of Lafayette there is presently an existing pedestrian sidewalk network along South College Drive (LA Hwy. 3025) on one or both sides of the roadway from Coolidge Street at Lafayette General Hospital until its intersection with Horseshoe Drive. The sidewalk network continues on North College on the north side of Johnston Street to its intersection with Bertrand Drive and continues north on Bertrand Drive.

The proposed project will complete this sidewalk network on both sides of South College from Johnston Street to Horseshoe Drive. South College in this area is a 4 lane highway with continuous center turn lane with a high ADT. There is limited available right of way in some areas of the route with above ground utility structures such as power poles, fire hydrants, and communication network pedestals within the available right of way for construction of sidewalks. Therefore additional right of way will have to be acquired in some areas to facilitate the proposed sidewalks.

Project Design Development Process

1.) Project Design Kickoff

One of the first steps to be undertaken would be to obtain the latest construction drawings and right of way maps for this 2,500 L. F. segment of South College Drive. The construction drawings should immediately reveal areas of limited right of way for construction of the proposed sidewalks. A field reconnaissance would then be performed by the design team for the entire route with emphasis on problematic areas.

The next step in project development will be a project kickoff meeting with DOTD and the A&A survey and design team. Utilizing the roadside development and ADA policies established by DOTD the sidewalk design criteria will be established. Strategies for addressing problematic construction areas and areas obviously requiring acquisition of additional right of way will be discussed. The limits of the topographic survey and scope of data collection of underground/buried utilities and subsurface drainage features will also be discussed and documented. A survey and design report will be generated from the kickoff meeting.

2.) Topographic Survey

The first step of the topographic survey will be to obtain a list of property owners along the survey route and acquire permission before entering the property.

The second step of the topographic survey will entail establishing GPS control monuments near the proposed termini and at appropriate intervals between them.

A closure loop will then be established between the GPS control monuments to ascertain accuracy of the coordinates of the control monuments. Once accuracy of control has been established the actual topographic survey may be initiated.

18. Approach and Methodology - continued:

The topographic survey will commence with obtaining a D.T.M. (digital terrain model) along the survey line of a width commensurate with the approximate width of anticipated required right of way line determined within the corridor study.

The next step of the topographic survey will be the utility survey and will be initiated with an LA One Call to have area utility companies mark their utility lines. We will request that the utility company meet onsite with our field survey party chief as locations, types, sizes and depths of underground utilities are located and marked. If evident unmarked utilities are discovered, A&A will make a diligent attempt to locate and notify the subject utility of needed utility locates and marking. DOTD will be notified of any evident utility companies which are uncooperative with LA One Call or other forms of notifications.

Upon completion of the utility survey, the topographic survey will continue gathering of all data to reflect existing features such as roadways, driveways, structures, drainage culverts, buildings, objects, tree lines etc. which could possibly effect the design for the proposed roadway and intersection improvements.

All field data will be post processed in the office and plotted by Cad technicians and drafters. The topographic survey will be generated and developed in general conformity with the LA DOTD Location Survey Manual and Procedures.

3.) Preliminary and Final Plan Development

Construction plan sheets will be developed by plotting the proposed sidewalk routes, limits and intersection ramps. Driveway and other encountered surface features will have to be evaluated for ADA requirements and any required ADA mitigation measures determined. Intersection and other required ramp details will be developed. A 60% preliminary plan design review will then be submitted to DOTD for review and comments. Upon receipt, 60% preliminary plan comments will be addressed. Preliminary quantities will be developed and 95% preliminary plans will be submitted to DOTD and a field plan in hand review scheduled.

Upon completion of the field plan in hand review, all comments generated will be incorporated into the form of final preliminary plans. The final preliminary plans will include right of way taking lines to be submitted to the professional surveyor of record for incorporation with his property survey and title reports for development of right of way acquisition maps.

The engineering design will now proceed into final plans where all elements of the plan drawings and details are finalized and construction contract provisions and specifications are developed to generate an advance check print review of the final plans. Comments from the ACP review will be addressed and final plan construction documents will be created. The final plan submittal will include a constructability review form and a construction cost estimate.

4.) Required Property Survey and Right of Way Maps

The first step is acquiring proposed taking lines (required right of way) from the design team.

18. Approach and Methodology - continued:

Next would be to acquire title take-offs (current ownership) at parish court house.

Survey crew would go on the ground to recover horizontal control monuments. Title take-offs along with all other recorded documents (plats, maps, etc.) would be utilized during the field survey to establish property lines and existing right of way lines. From the field survey, property sketches would be prepared and submitted for review.

Upon completion and approval of property sketches, base right of way maps would be prepared next.

Normally at this a joint plan review (JPR) meeting would be held to review the base right of way map. This meeting is attended by design, mapping, utility, environmental, location and survey real estate teams.

Comments are developed by the JPR and then revised by right of way map preparer and re-submitted as final right of way maps for right of way acquisition.

Finally any title older than six (6) months would be updated and final maps revised accordingly.
