### Key Message

Welcome to the July 2023 edition of the LADOTD e-Construction Newsletter!

At LADOTD, we recognize the power of technology in streamlining processes, enhancing collaboration, and optimizing project delivery. With e-Construction, we are embracing a future where digital solutions play a pivotal role in accelerating construction timelines, improving data accuracy, and ensuring the highest standards of quality and safety.

As we continue our journey toward a digitally driven construction landscape, this newsletter will keep you informed and engaged with the latest advancements and initiatives shaping our industry.

Sincerely,  
LADOTD e-Construction Team

### Monthly Webinar

SIGN UP

JOIN

07/11/2023 | 10:00AM CST

Topics:

- Image Magnifier Tips
- Change to Sample Dispositions
- Mandrel Form

### Q&A Session

SIGNUP

JOIN

07/18/2023 | 10:00AM CST

The conversation continues with a Q&A session this month! Bring your questions, concerns, and ideas and we'll provide the answers.

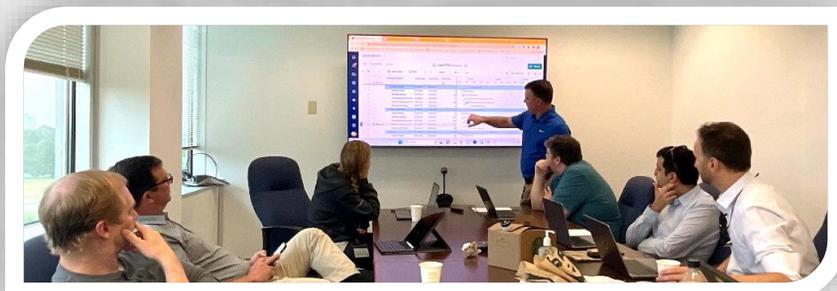

### Microlearning

## HeadLight Heroes

### Michael Brister- District 07- H.010865.6

In our tireless pursuit of enhancing Louisiana's infrastructure, we recognize that it is the meticulous attention to detail that truly makes a difference in achieving excellence. Behind the scenes, dedicated inspectors like Michael Brister leave no stone unturned as they diligently work to ensure that every aspect of our projects meets the highest standards. Today, we shine a spotlight on Michael Brister, whose unwavering commitment to his role resulted in an astounding 560 meticulously documented observations. Join us in celebrating his remarkable contributions to our ongoing efforts of delivering top-notch infrastructure for the people of Louisiana. Thank you Michael Brister for being detail oriented!

### Destin Bennett- District 08- H.001881.6

In the fast-paced world of construction, we often find ourselves focused on documenting major milestones or addressing significant challenges on the job. However, it is equally important to recognize and appreciate the workmanship displayed by our contractors in the field. Today, we shine a spotlight on Destin Bennett from District 08 Unit 248, who utilizes annotation to showcase a construction crew's application of a class 3 finish on the barrier rails of a bridge. In the image shared below, we witness the power of Fieldbook in capturing the day-to-day story, which encompasses not only the ups and downs but also the moments of extraordinary accomplishment. Thank you Destin Bennett! Continue to use all the tools and resources to capture the great work being done out in the field.

## Tips and Tricks

**Apple Reminders App**-It's designed to help you stay organized by providing daily, weekly, and monthly reminders. Speaking from personal experience and feedback from others, this app is incredibly effective. Numerous inspectors have attested to its usefulness, admitting that they've occasionally overlooked submitting their DWR or required a reminder to include essential documentation in their reports. Incorporating this app into your workflow or process can prove to be an invaluable asset.

**Click on the app logo to see how!**

## VIRTUAL COURSES & TRAINING

### Missed the June e-Construction webinar?

Watch as HeadLight demonstrates how to use the multitasking tools and quick notes on the iPad. Followed by Les walking you through some work item nuances and tips for a successful report sync.

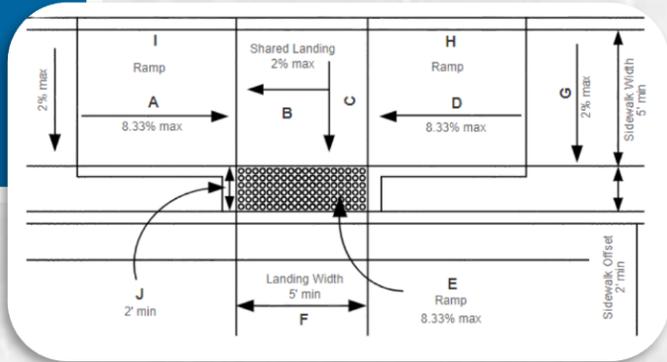

*Click play to watch (YouTube)*

Have you used the ADA Curb Ramp Form? Want to see how?

Click on the ramp diagram for a tutorial.

\*Pro tip- The form calculates all of the Specification tolerances for you!

## JUNE e-CONSTRUCTION HIGHLIGHTS

### CAAL Conference

Brian Owens presenting at the CAAL conference

Patrick Icenogle and other HQ construction engineers recently participated in the Concrete & Aggregates Association of Louisiana's annual conference. A key area of focus was the safeguarding of concrete samples and ensuring accurate documentation throughout the process. How can our existing e-Construction tools support these efforts? Let's explore how the use of HeadLight can play a vital role in documenting the use of curing boxes and maintaining the chain of custody. Take a moment to appreciate the excellent examples below crafted by Hugh Tate and Nicholas Satchell from District 03.

Kris Wascom presenting at the CAAL conference
